## Software Developer

Motivated BCA graduate seeking to leverage strong technical skills and a passion for software development in an entry-level position. Eager to contribute to innovative projects and gain hands-on experience in a dynamic and growth-oriented environment, while continuously expanding knowledge in computer applications and technologies

---

## Core Competencies

Team Player, Programmer, Microsoft , C, C++, Java, Python, .NET

---

## Projects

Steganography : Hiding text into image, [Link](#)

- Implemented steganography techniques to embed text within digital images, ensuring secure and covert data transmission by leveraging image pixel manipulation without altering the visual quality.

Attendance Management System using Face Recognition in RealTimeDatabase, [Link](#)

- The goal of this project is to automate the process of attendance management using facial recognition technology, ensuring accuracy and efficiency. The system utilizes a real-time database to store and update attendance records instantly.

Note Master, [Link](#)

- Designed and developed a responsive note maker application using HTML, CSS. Implemented a clean and intuitive user interface using modern CSS techniques, ensuring cross-browser compatibility, enhancing user experience with seamless data persistence.
